CAREER OBJECTIVE

Motivated Data Analyst and Power BI Developer with hands-on experience building interactive dashboards, performing data cleaning and transformation using Power Query, and creating DAX measures to calculate KPIs. Skilled in converting raw data into actionable insights that support data-driven business decisions. Seeking a full-time opportunity to contribute analytical and visualization expertise in a growth-oriented organization.

TECHNICAL SKILLS

BI & Visualization

Power BI Desktop	Power BI Service	Power Query	DAX Functions
Data Modeling	KPI Development	Power Apps	Power Automate

Database & Tools

SQL — Joins & Subqueries	Oracle Database	Advanced Excel	Pivot Tables
VLOOKUP	Data Cleaning	Dashboard Design	

PROJECTS

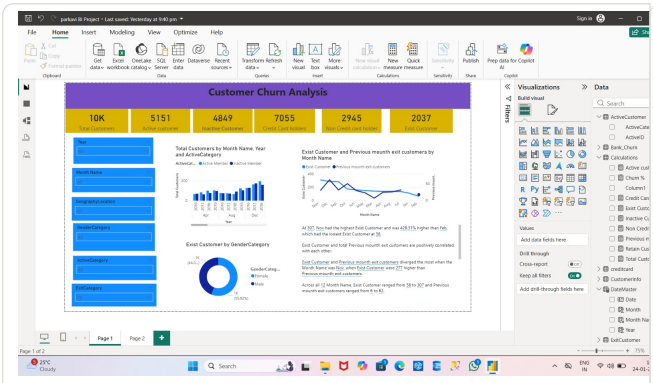

01

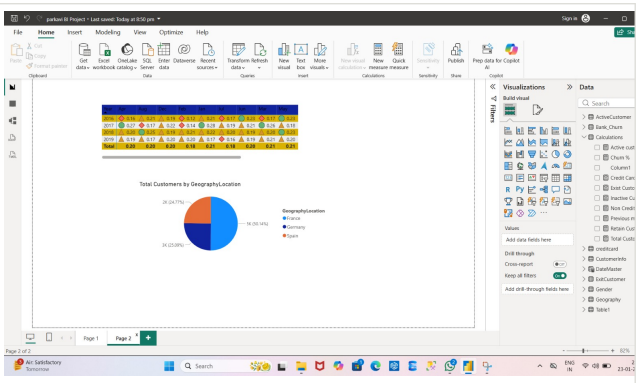

Customer Churn Analysis

Power BI · Power Query · DAX · Excel

- Analyzed customer datasets using Microsoft Excel to identify behavioral churn patterns and key risk segments.
- Built an interactive Power BI dashboard to visualize churn rate, customer lifetime value, and retention trends.
- Applied Power Query for end-to-end data cleaning and transformation of raw customer records.
- Developed custom DAX measures to calculate churn percentage, retention rates, and business KPIs.
